

Pradeep Yadav

Web Developer with 2+ years of experience in React.js, Next.js, JavaScript, Redux, and Tailwind CSS. Skilled in building scalable web applications, MERN deployment using Docker and Traefik, and Data Structures & Algorithms (DSA).

EXPERIENCE

Infogainsoft, Noida — Web Developer

Oct 2025 - present

I am currently responsible for developing responsive and user-friendly front-end interfaces using React.js, and managing data operations by creating and consuming RESTful APIs with Mongoose. Integrated Razorpay for secure payment processing. Deployed and maintained the application on Hostinger VPS, ensuring smooth performance, reliability, and production stability.

Dreamzsop Advertising Pvt Ltd, Noida — Web Developer

Sep 2024 - Sep 2025

Responsible for developing the front-end UI and admin panels for two projects using MERN Stack and Next.js (App Router). My work includes creating and consuming RESTful APIs with Mongoose, integrating Firebase for notifications, implementing Razorpay for payments, and building responsive UIs using ShadCN.

HoldOnWorld, Noida — Web Developer

Feb 2024 - Sep 2024

My responsibility was to develop the front-end UI using Next.js (App router) and manage data operations by creating and fetching data through RESTful APIs using Mongoose.

SKILLS

React.js	• Next.js	• JavaScript	• Firebase
Tailwind CSS	• Node.js	• Express.js	• MongoDB
Razorpay	• Formik	• Redux	• VPS(Hostinger)
C++	• DSA		

EDUCATION

V. B. S. Purvanchal University, Jaunpur — B.Tech(CSE)

Aug 2019 - Sep 2023

Completed a Bachelor of Technology degree in Computer Science and Engineering, gaining foundational knowledge in software development, data structures, algorithms, and web technologies.

PROJECTS

CRM <https://crm.infogainsoft.com>

Developed a multi-tenant CRM platform using MERN Stack, covering leads, deals, invoices, inventory, tasks, and support modules. Implemented role-based access control, real-time notifications, audit logs, and dynamic permissions using Redux Toolkit and custom hooks. Utilized Mantine UI, ExcelJS, and API security tools for a scalable enterprise solution.

Varada <https://varadaplastech.com>

Built a full-stack e-commerce platform using MERN Stack with customer and admin modules. Implemented Redux Toolkit, JWT authentication, Razorpay payments, image uploads, and email services. Used Tailwind CSS, Radix UI, ApexCharts, Formik, and built a responsive UI with analytics, and notifications.

click4flight <https://click4flight.co.uk>

Developed end-to-end flight search and results functionality using the MERN stack, including dynamic filtering and advanced search features. Designed and integrated RESTful APIs to fetch, display, and update flight data, ensuring seamless frontend-backend communication. Deployed and managed the application on a Hostinger VPS.

astroankitjha <https://astroankitjha.com>

Built a comprehensive admin panel to manage services and backend operations, enabling efficient control over platform data and workflows. Designed and integrated RESTful APIs to fetch and display data in the UI, ensuring seamless frontend-backend communication. Deployed and managed the application on a Hostinger VPS and integrated Razorpay .

CRM And CMS

<https://www.holdonworld.com>

Developed modules for the admin panel using Next.js and Mongoose. Utilized various libraries to enhance performance and streamline the development process, including Formik, react-date-picker, Mantine, Pusher (for the notification system), Headless UI, react-select, and others.
