PROFESSIONAL SUMMARY

Web Developer with 2.5+ years of experience building scalable, responsive web applications using React.js, Next.js, and the MERN stack. Skilled in RESTful API development, payment gateway integration, and MERN application deployment using Docker, Traefik, and VPS environments. Strong foundation in Data Structures & Algorithms (DSA).

TECHNICAL SKILLS

Languages & Core: JavaScript, C++, Data Structures & Algorithms (DSA)

Frontend: React.js, Next.js (App Router), Redux Toolkit, Tailwind CSS, Formik

Backend & Database: Node.js, Express.js, MongoDB, Mongoose, RESTful APIs

Tools & Deployment: Firebase, Razorpay, Docker, Traefik, Hostinger VPS, Git

WORK EXPERIENCE

Web Developer — Infogainsoft, Noida

Oct 2025 – Jul 2026

- Developed responsive, user-friendly front-end interfaces using React.js for multiple client applications.
- Built and consumed RESTful APIs with Mongoose to manage data operations across full-stack projects.
- Integrated Razorpay for secure payment processing.
- Deployed and maintained applications on Hostinger VPS, ensuring performance, reliability, and production stability.

Web Developer — Dreamzop Advertising Pvt Ltd, Noida

Sep 2024 – Sep 2025

- Developed front-end UI and admin panels for two projects using the MERN stack and Next.js (App Router).
- Created and consumed RESTful APIs with Mongoose; integrated Firebase for real-time notifications.
- Implemented Razorpay payment processing and built responsive UIs using ShadCN components.

Web Developer — HoldOnWorld, Noida

Feb 2024 – Sep 2024

- Developed front-end UI using Next.js (App Router) for client-facing applications.
- Managed data operations by creating and fetching data through RESTful APIs using Mongoose.

KEY PROJECTS

Multi-Tenant CRM Platform | crm.infogainsoft.com

- Built a multi-tenant CRM covering leads, deals, invoices, inventory, tasks, and support modules using the MERN stack.
- Implemented role-based access control, real-time notifications, audit logs, and dynamic permissions with Redux Toolkit and custom hooks; used Mantine UI and ExcelJS for a scalable enterprise solution.

Varada — E-Commerce Platform | varadaplastech.com

- Built a full-stack e-commerce platform with customer and admin modules using the MERN stack.
- Implemented Redux Toolkit, JWT authentication, Razorpay payments, image uploads, and email services with Tailwind CSS, Radix UI, ApexCharts, and Formik.

click4flight — Flight Search Platform | click4flight.co.uk

- Developed end-to-end flight search and results functionality with dynamic filtering and advanced search features.
- Designed and integrated RESTful APIs for seamless frontend-backend communication; deployed and managed on Hostinger VPS.

astroankitjha — Admin Panel | astroankitjha.com

- Built a comprehensive admin panel to manage services and backend operations, integrating Razorpay payments.
- Designed RESTful APIs for data display and management; deployed and managed on Hostinger VPS.

CRM and CMS | holdonworld.com

- Developed admin panel modules using Next.js and Mongoose, including a notification system with Pusher.
- Used Formik, react-date-picker, Mantine, Headless UI, and react-select to enhance performance and streamline development.

EDUCATION

B.Tech, Computer Science & Engineering

Aug 2019 – Sep 2023

V. B. S. Purvanchal University, Jaunpur | **Languages:** Hindi, English
